# THE FALL, 2009 SEMESTER HAS PROVEN TO BE THE BEST SEMESTER YET!

by Guthrie Veech

We have a record enrollment of 333 students. Our FTE (full-time equivalent) is 310. This is the first time FTE has surpassed 300. Our students are bright, energetic, and have a strong faith to do ministry. The percentage of students who come to us from Christian Churches / Churches of Christ has increased to 56%. We have been working hard to see that percent increase and this is the year it happened. That number increased 15%. Just this week we started a new women's basketball team adding another sports opportunity for our students. We

are now using Facebook in a serious way. We are also tweeting. Follow us on twitter and keep up to date on everything that is happening at SLCC. SEND US YOUR STUDENTS ... THEY WILL LOVE SAINT LOUIS CHRISTIAN COLLEGE!

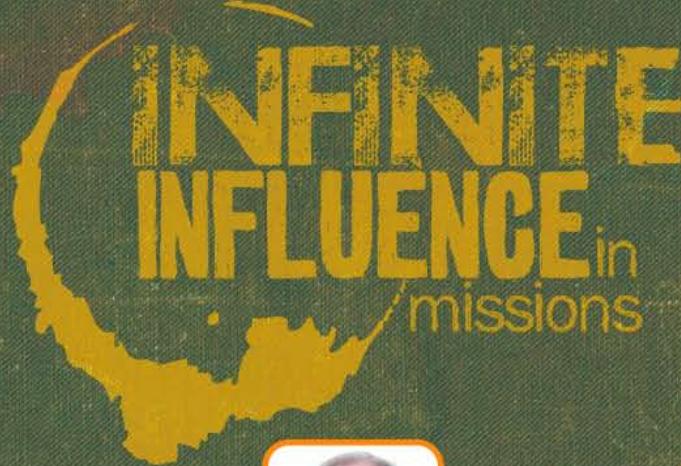

## SLCC CELEBRATES 200TH ANNIVERSARY OF DECLARATION AND ADDRESS BY THOMAS CAMPBELL

Thomas Campbell was penning the "Declaration and Address" 200 years ago, at about the same time Daniel Boone was nearing completion of the construction of his home. This bicentennial celebration connecting those two actions is the college's way of commemorating the writing of Campbell's thirteen propositions regarding Christian unity. This semester over 200 from Saint Louis Christian College visited the Boone home site to experience what life was like during the life of Campbell. The theme of the day was "Still Relevant." Students were able to experience a dozen 19th century buildings including the Old Peace Chapel, grist mill, schoolhouse, and carpenter's shop. The buildings offered students a glimpse into life as a frontiersman and the chance to witness the faith, hard work, and dedication these men and women possessed. Dr. Mike Pabarcus delivered a sermon stressing the importance of the Campbell document. An actor commemorated the private faith development of slaves 200 years ago. Another actor commemorated the story of a Restorationist preacher on the life of the community. All semester, sermons in the SLCC college chapel have focused on the great, historic Restoration themes. The Great Communion was celebrated in chapel on campus visitation day. Copies of the updated version of Campbell's 13 Propositions were distributed to students. Is this kind of historic reflection important? Absolutely! One student observed at the end of the day, "are there still Restoration churches today?" It was a pleasure to answer the question, absolutely yes, and Saint Louis Christian College is part of that great Restoration heritage.

# JESUS 101: LIFE OF CHRIST

## Twitterific!

by Brandon Milburn

Twitter is becoming more and more prevalent each and every day. And I can probably guess that a majority of the people that have heard the name twitter, most likely have no idea what it is. Twitter is a website dedicated to "micro-blogging"! While some people use it to let people know what they are doing at every minute of every day, most people use it to gather and share info with others on twitter. For example, I can attach a link that can share a video, a picture, or even a location! And twitter can take certain "tweeters" and send their "tweets" straight to your mobile device. There are plenty of current students and almmunni on twitter, and it provides yet another way to stay in touch with friends, family, and even public figures. Personally, I am a huge fan of the St. Louis Cardinals and it is so much fun to "follow" sports writers in the St. Louis area and occasionally have a conversation with them! The same applies with Christian authors, speakers, and ministers! So Saint Louis Christian College took the initiative to create a twitter account for the college, giving current students and alumni a chance to stay connected with news from the college. And if you set up mobile alerts you can get updates on the go! Want to join twitter and don't know how? Here are a few simple steps...

1. go to [www.twitter.com](http://www.twitter.com)
2. click "sign up now"
3. fill in the blanks
4. search "StLouisCC" and click "follow"

Thanks for staying in touch!*

SLCC has long had a passion for evangelism and church planting and so we're excited that Professors Scott ('95) and Lisa Womble have started a church in St. Louis called The Merge. The church's tagline, "Where the Church Meets Real Life," is revealing in that their goal is to be a 24/7 coffeehouse church that also has a Christian music venue on site. Scott says "The Merge is taking the gospel to the market place. Instead of waiting for the unchurched to come to us, we are going to them." (Acts 17:17) Their goal is to obtain a space at a local mall so that they can have continual interaction with the public.

Scott and Lisa desire for people to merge their lives fully with God, and therefore, The Merge focuses on building people, not programs. They stress "being real" with people because they value genuine dialogue, authenticity, transparency, and relationships.
